Setting your Teams background to a custom image.

How to change your teams background to a custom image for use in calls.

1. Click "**Calendar**"

2. Click "**Meet now**" and join a meeting with yourself.

3. Click "**Effects and avatars**"

4. Click "**More video effects**"

5. Click "**Add new**"

6. Select the image file with your chosen background and press **"open"**

7. The custom background will now be set as your default wallpaper during future Teams meetings, you can change it to other images by re-following the steps in this guide.
