Giacom 2016 Phone email setup - iOS

Tap Settings > Mail, Contacts, Calendars > Add Account > Exchange

Enter email address, password and description, then select **Next:**

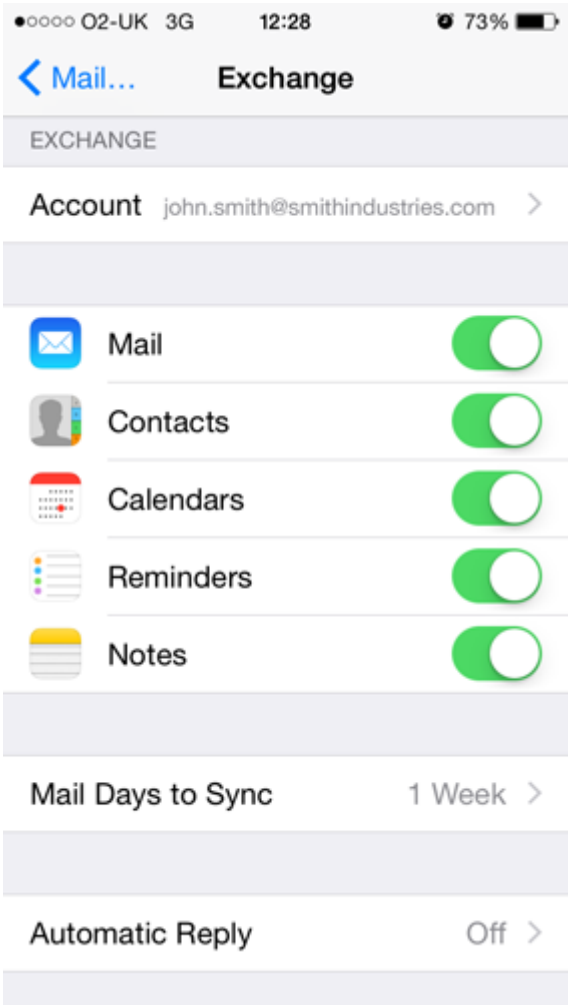

Your iOS device will now try to locate your Exchange Server. If necessary enter the appropriate Exchange server name from the table below, and tap **Next**

Server name : activesync.giacomcp.com

Upon completion you can choose which types of data to sync with your Exchange account:

PLEASE NOTE: To modify your Exchange settings, Tap **Settings** > **Mail** > **Contacts** > **Calendars**, select your Exchange account, and tap **Account Info**
