

Giacom 2016 Phone email setup - iOS

Tap Settings > Mail, Contacts, Calendars > Add Account > Exchange

image.1631013725267.png

Enter email address, password and description, then select **Next**:

image.1631013735620.png

Your iOS device will now try to locate your Exchange Server. If necessary enter the appropriate Exchange server name from the table below, and tap **Next**

Server name : activesync.giacomcp.com

image.1631013771661.png

Upon completion you can choose which types of data to sync with your Exchange account:
